

# Starting Seminar of the “Meta Information Technique“

Date: 16/09/2005

***On October 7, eurac GmbH begins with a new quality offer for employees working in intensive research areas.***

After comprehensive research and intensive preparation, eurac GmbH (European Academy for Metacommunication) begins on October 7, with an exclusive worldwide seminar offer.

People who regularly work on finding solutions to complex research assignments can learn the M.I.T. (Meta Information Technique) in a 5-day seminar (2 times 2 ½ days).

## **M.I.T. - Part 1: Learning of the application templates**

The M.I.T. training course divides itself into 2 practical successive parts. In part 1 of the seminar, from October 7 through October 9, Dr. Wolfgang Schmitz, founder of M.I.T., introduces the theory and background of his method.

Simultaneously, an implementation practice of a research assignment is demonstrated.

## **M.I.T. – Part 2: Outcome analysis**

The seminar continues from November 18 through November 20. In the time between the first and second parts of the seminar, the participants receive research homework assignments to be evaluated during the second part of the seminar in November.

Part 2 of the seminar is primarily concerned with the examination and evaluation of the individual research homework assignments, which assists in positioning the skills necessary for further use of the application templates.

## **A reliable Method for obtaining information**

M.I.T. is a proven, reliable instrument used for the retrieval and processing of information that is now available to everyone. The fundamental, on which M.I.T. is based, is being successfully utilized for many years in China and the U.S.A. With its M.I.T. offer, the eurac Academy is the world-wide forerunner. Both M.I.T. seminars are closely linked to each other and therefore, must be booked as a package. The training is done in small exclusive groups and is found on location in Oberndorf, a city close to Rottweil in the Black Forest. Registration for the seminar is still available. For further information, please see our website under: [www.eurac.com](http://www.eurac.com).
